CHAIRMAN'S COLUMN

NICK WHITE
Chair

Over the coming months the executive committee will be working on a programme to encourage newly retired people to join Sevenoaks U3A, and for members to join existing groups as well as to start new groups.

One of these measures will take the form of monthly coffee mornings. Starting on Monday 2nd December, at 10.30, we will be holding what we aim to be monthly coffee mornings at Miller & Carter in Riverhead. All members are welcome to attend, especially new members, members of the executive committee and supporting committees, leaders of groups seeking new members, and members interested in new activities. We hope that these meetings will help members to maximise the benefits that they gain from Sevenoaks U3A, and for the organisation to make the best use of the individual skills of its members.

Please do bring friends who might be interested in joining us.

There is no need to buy a parking ticket. Just go into the building and enter your registration number on their computer terminal near the entrance.

As this is our last newsletter this year I would like to wish all of our members a very enjoyable holiday season, and I hope that you will find plenty of U3A activities to keep you occupied in 2020.

Foot Tapping Jazz Study Day

Over 80 Members were treated to an educational (and most enjoyable) journey through the history of jazz at Walthamstow Hall on 31st October.

Paul Higgs (trumpet) and his fellow musicians (piano, double bass & drums) guided us through the development of jazz in its various styles from the late 1800s to the present day.

These may not be the only groups with vacancies.

Please contact the organisers of any groups that interest you using the details in the Handbook and the website.

A reminder: there is still time to apply for the yearly and very popular **Festive Winter Lunch** on **Friday Feb 21** at the Wildernesse Golf course. You will find full details (including the application slip) on the flyer enclosed with the November Newsletter and available on line on the u3a Sevenoaks website. Please apply while it is on your mind. You will, as usual, have a most enjoyable meal in excellent company.

Another date for your 2020 diary: on **Friday March 27**, travelling by train, there will be a **Tour of four London (mostly Wren) churches**, followed by a visit to the nearby **Mithraeum**. This trip promises to be exciting and interesting.

SECURITY OF PROTECTED E-MAIL ADDRESSES ON OUR WEBSITE AND SCAM ALERTS

Approximately two years ago the webteam advised Group Organisers that we were changing the way in which we protected all individual contact details on the website. This move was done in anticipation of the 2018 Data Protection Legislation and to protect private emails from phishing and other unwanted electronic approaches.

The Webteam have over recent months received a number of enquiries from GO s about annoying messages via their website protected addresses stating 'Message undeliverable'. The message is sent from a server identified as 'kundenserve.ge' followed by a lot of unintelligible computer code, but within it will be one or two real addresses stating 'Reply to:etc'

These messages are in fact being stopped by our Website host firewall and are protecting your personal email from being visible (phished) by the outside world. The web host server is therefore doing its job of stopping spurious messages. Unfortunately the downside is that the host server notifies all recipients of the action it has undertaken.

With the help of our Web host 1&1 Ionos, we have beefed up our security by imposing SSL Certificates which are small data files that digitally bind a cryptographic key to an organization's details and we continually block as many messages from external sources as we can.

However, the scammers are very resourceful and will continually seek out ways of trying to steal your personal information. Despite our efforts you may still get scam messages that bypass the Web site server.

The rules are simple:

- Use and maintain a strong Anti-Virus and Malware programme
- Be vigilant, do not click on any link or attachment from addresses you do not recognise
- Undertake good housekeeping – maintain regular backups of all your data, ideally on a device separate from you main computer and undertake regular disc cleaning operations especially if you use the Internet on a regular basis. Many sites allow 'Cookies' to be placed on your machine and they will slow things down - delete them.
- Use strong passwords to protect sensitive data

We have a lot of information on computer security on our website and it is worth exploring the page as it does give information on the latest scams. <https://www.sevenoaksu3a.org.uk/Links/links.html>

The webteam are continuing to explore security features and we are exploring options that allow two-way communication. This will be assessed on the basis of its functionality and cost.
